Welcome from President of Asian AVA

Dear Colleagues,

Welcome to the Asian AVA (Asian Association of Veterinary Anatomists) Congress in Bali, Indonesia!

I am very glad to see the members of the Asian AVA from many countries again. In March 2006, the Asian AVA was set up and at the same time, the 1st Congress was held in Tsukuba, Japan. Thereafter, in September 2007, the 2nd Congress was held in Bangkok, Thailand. In November 2009, the 3rd one was in Cheongju in Korea. And, in October 2012, the 4th one was in Phuket, Thailand. Thus, nine years have passed from the 1st Congress, and this is the 5th time that the Asian AVA Congress is held. I strongly believe that the Asian AVA Congress has already become established among veterinary anatomists in Asia.

I would like to sincerely thank all members of the Organizing Committee of the Congress, especially, Vice President of Asian AVA, Prof. Srihadi AGUNG PRIYONO; Chairman of the 5th Asian AVA Congress, Dr. I Ketut Mudite ADNYANE; and Faculty of Veterinary Medicine, Bogor Agricultural University (IPB), for their kind preparation for the Congress.

Bali is the most famous resort place in Asia. We are very happy to attend the Congress held in such an attractive site. Through the Congress, we would like to deepen friendship with each other.

Thank you.

Masamichi KUROHMARU, DVM, Ph.D
President of Asian AVA
Professor of Laboratory of Veterinary Anatomy,
The University of Tokyo, Japan
Welcome from Chairman of the Organizing Committee

Dear Colleagues,

Very Good Morning! Ladies and Gentlemen,

On behalf of the organizing committee, It’s my pleasure to welcome you to the 5th Congress of Asian Association of Veterinary Anatomists (Asian AVA) and welcome to Kuta – Bali Indonesia.

In this opportunity, I would like to express my great appreciation to Prof. Masamichi KUROHMARU, the President of Asian AVA, to the Rector of Udayana University and to Prof. Srihadi AGUNG PRIYONO [Vice President of Asian AVA, Dean of Faculty of Veterinary Medicine, Bogor Agricultural University; the President of SEAVSA (South East Asia Veterinary School Association); Head of IVSA (Indonesian Veterinary School Association)] and to Dean of Faculty of Veterinary Medicine - Udayana University for their support and participation on the congress.

The Congress adopts a timely theme: “The Role of Anatomy in Veterinary Education and Research in Supporting the Achievement of Veterinary Day-one Competencies”.

Our technical program is rich and varied with one keynote speaker, seven special lectures and 64 papers for poster sessions.

As a congress chair of 5th Asian AVA 2015, I know that the success of the event depends on the many people who have worked with us in planning and organizing both the technical program and supporting social arrangements.

In particular, we thank the sponsor and organizing committee members (Faculty of Veterinary Medicine - Bogor Agricultural University & Udayana University) who have all worked hard for the details of important aspects of the congress programs.

In closing, I hope that all of you will enjoy the 5th Congress Asian AVA, 2015 and memorable time visiting the beautiful Bali Island.

Thank you. Have a wonderful day.

Sincerely,

Dr. I Ketut Mudite ADNYANE, DVM, MS
Chairman of 5th Congress Asian AVA 2015
