

This third supplement issue of the Indonesian Journal of Nutrition and Food features the presentations given at the 1st International Conference on Food, Nutrition and Health that was organized by Centre for Dietetics Studies, Faculty of Health Sciences, Universiti Teknologi MARA which was held virtually on 19–20 September 2023.

These papers were reviewed by the Scientific Committee of ICFNH 2023 before their presentation, but they did not undergo the conventional reviewing system of the Indonesian Journal of Nutrition and Food. The quality of the manuscript published in this issue is entirely under responsibility of the Scientific Committee of the Conference.

SCIENTIFIC COMMITTEE MESSAGE FROM 1st ICFNH 2023

The 1st International Conference on Food, Nutrition, and Health (ICFNH) 2023 was hosted virtually by the Centre for Dietetics Studies at the Faculty of Health Sciences, Universiti Teknologi MARA. The main objective of this conference was to share the latest advancements in the fields of food, nutrition, and health. ICFNH 2023 provided a platform for researchers, practitioners, students, and enthusiasts to exchange their research findings and innovative ideas within this domain. The event featured engaging discussions between young nutrition and dietetics students, senior researchers, professors, and influential figures in the global food and nutrition community.

The organizing committee of ICFNH 2023 selected "Curating Health through Nutrition: Shared Responsibilities" as the theme of the conference. The articles presented in this third supplementary issue are based on 22 oral presentations that covered six themes from ICFNH 2023.

This supplementary edition of the ICFNH 2023 is supported by the Indonesian Journal of Nutrition and Food. We hope this publication serves as a valuable source of scientific knowledge in the field of food, nutrition, and health for our readers.

On behalf of the 1st ICFNH 2023,

Mohd Ramadan bin Ab Hamid, MSc., PhD

Head of Scientific Committee
Lead Guest Editor of 3rd Issue
