

Journal Scope

Focus and Scope:

Jurnal Teknologi dan Industri Pangan (JTIP) or Journal of Food Technology and Industry is peer reviewed and open access journal, focuses on publishing original research and invited review manuscripts dealing with food science (food chemistry, food microbiology, food biochemistry and nutrition, food safety and quality, and food processing and engineering), food technology and its industrial application emphasizing on Indonesian local and indigenous resources.

Types of manuscript

Research article

A research article is an original full-length research paper which should not exceed 7.500 words (including table and figures). Research article should be prepared according to the following order: title, authors name and affiliations, abstract, keywords, introduction, materials and method, results and discussion, conclusion, acknowledgement (optional), and references.

Review article

Review article is for invited author who has h-index (Scopus) 10 or above and has publications in a specific research area within the last five years. The review article provides a balanced overview of the research area, and should not exceed 7500 words (excluding abstract and references). Review articles aim to provide a critical and comprehensive assessment of published material to gain new insights.

The authors are fully responsible for accuracy of the content. Any correspondence regarding the manuscript will be addressed to the correspondent author who is clearly stated including his/her email address, telephone and fax number (including area code), and the complete mailing address. The correspondent author will handle correspondence with editor during reviewing process. The author(s) are required to suggest three potential reviewer names including their email addresses.

Preparation of the manuscript

- a. The manuscript should be written in a good English or Indonesian language. It must be type written on A4 paper by using Microsoft Word processor with Arial 11 font and 1.5 spaced. Manuscript in English may not include abstract in Indonesian language. Manuscript in Indonesian language must provide table(s) and figure(s) with legends in both English and Indonesian language. Starting from Volume 37 Issue No. 1 Year 2026, manuscript in Indonesian language must only provide all table(s) and figure(s) in English language.
- b. All graphics and table should be prepared in separate pages.
- c. If the manuscript has been presented in scientific meeting, please mention in the footnote the detail about the meeting (name of conference, date, place).
- d. When animal/human subject is involved in the in-vivo study, ethical clearance should be included in the manuscript by stating the number of ethical approval obtained from ethic committee.

Guideline for the manuscript content

Title, Author(s) name, Affiliation

- a. The title of the article should be brief and informative (max.15 words).
- b. The title is written all in capitilize each word letters.
- c. Corresponding author should be marked with asterisk symbol.
- d. The institution where authors are affiliated should be completely written (Laboratory/department, institution name and address with city and country).

Abstract

- a. Abstract written in one paragraph in English and the Indonesian language (in italics), Abstract is not more than 250 words.
- b. The abstract should state briefly background, objective, materials and method, the main findings supported by quantitative data which is relevant to the title, and the major conclusion.

Keywords

The keywords consists of no more than 5 important words representing the content of the article and can be used as internet searching words and arranged in alphabetical order.

Introduction

The introduction states background of the research supported mainly by the relevant references and ended with the objectives of the research.

Materials and Method

- a. The materials used should include manufacturer name (with country) and source.
- b. The reagents and equipment or instruments used should include the type/model and manufacturer name (with country) written in this section.
- c. The methods used in the study should be explained in detail to allow the work to be reproduced. Reference should be cited if the method had been published.
- d. Specification of the instruments and equipments (except for glasswares) should also be mentioned clearly.

Results and Discussion

- a. The title of tables and figures should be numbered consecutively according to their appearance in the text.
- b. The discussion of the results should be supported by relevant references.
- c. Decimals numbers adjusted to the type of analysis. Their units refer to international system of units (SI).
- d. The data presented in figures and tables must have Standard Deviation (SD) or Standard Error of Mean (SEM). The results of quantitative measurements, the use of laboratory instruments for quantitative analysis results, quantitative sensory results as well as quantitative microbiology analysis results require the inclusion of standard deviation or standard error of mean.
- e. A brief explanation on method for sampling, replication and statistical analysis is required in the method section.

Conclusion

Conclusion is drawn based on the results, discussion, and the objective of the research.

Acknowledgement (if necessary)

Acknowledgement contains the institution name of funding body/grants/sponsors or institution which provides facilities for the research project, or persons who assisted in technical work and manuscript preparation

References

- a. References are arranged in alphabetical.
- b. Title of references are only written in capital letter for the initial letter of the first word.
- c. Year, volume and pages should be completely written.
- d. Reference from the internet is written along with the date accessed.
- e. Minimum 80% of the cited references should be from the refereed journal articles published within the last 10 years. In addition, three of them should be published within the last 3 years, as minimum requirement.
- f. DOI (*Digital Object Identifier*) number should be mentioned, if applicable.
- g. The name of journal/bulletin is written using standard abbreviation according to APA (American Psychological Association).

Proofs

Galey proof will be sent by email to correspondence author. The corrected proof should be returned within one working days to ensure timely publication of the manuscript.

Publication Fee is charged after accepted

Starting from Volume 35 Issue No. 2 Year 2024, article publication fee (APC): 1,000,000 (IDR) per article up to 5 pages. Additional page will be charged 50,000 (IDR) per page. This journal has no print version. This journal has no print version. Starting from Volume 37 Issue No. 1 Year 2026, article publication fee (APC): 2,000,000 (IDR) for Indonesian author(s) or 200 USD for foreign author(s) per article (no additional page charge). Starting from January 2026, JTIP will be published three times a year, i.e. in March, July, and November.

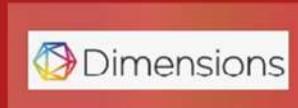

Manuscript should be submitted through online submission:
