Journal Description

Journal of Wildlife and Conservation Medicine (*J. Wildl. Conserv. Med.*) is a peer-reviewed and open access scientific journal in the field of wildlife in general and conservation medicine in particular.

Aims The journal aims to disseminate various information about wildlife rapidly and widely to the scientific community, policy makers, and conservation practitioners.

Scope The journal covers topics on wildlife conservation (both ex-situ and in-situ), biology, evolution, ecology, taxonomy, morphology, physiology, genetics, and medicine in terms of wild animals (terrestrial and aquatic).

Article Type The journal accepts manuscripts of original research findings, reviews, case reports, and short communications.

Publication Frequency The journal publishes manuscripts twice a year, namely in June and December. The first issue will be published in June 2025.

Language The journal accepts manuscripts in English and Indonesian, with English manuscripts preferred. Articles submitted in Indonesian will be translated into English, with the cost charged to the author.

Article Processing Charge Submission fee and article processing charge (APC) are **free**. All publication costs are covered by the School of Veterinary Medicine and Biomedical Sciences (SVMBS), IPB University.

Peer-review process The peer-review process is carried out in a double-anonymized system. All procedures and decisions are independent, transparent, and accountable. The final decision is up to two months after receipt of a well-formatted manuscript unless additional review is needed or it depends on the author's response or revision.

Publisher SVMBS IPB University collaborates with the Indonesia Veterinary Medical Association (IVMA/PDHI) and the Association of Indonesian Wildlife Aquatic and Exotic Animals Veterinarians (ASLIQEWAN) to publish the journal. PT Penerbit IPB Press supports designing, layout, and printing the journal articles. School of Veterinary Medicine and Biomedical Sciences, IPB University, Indonesia

List of Contents

Research

Comparative morphometric analysis of erythrocytes among several reptile species using ImageJ

Arindina Mahendra, Koekoeh Santoso, Agik Suprayogi, Hera Maheshwari, Ronald Tarigan, Wasmen Manalu, Damiana Rita Ekastuti, Aryani Sismin Satyaningtjas, Pudji Achmadi, Isdoni, Nur Rahmah Abdullah 1–6

Detection of mange-like skin lesions on snow leopard (*Panthera uncia*) and prey species in Kyrgyzstan

Johanne Ferri-Pisani Maltot, Martin Gilbert, Claire Lambert, Bastien Chaix, Baktybek Azhybekov, Anne-Lise Cabanat 11–19

Single-station passive acoustic monitoring of bird diversity and vocal activity in Cikaniki, Gunung Halimun-Salak National Park, West Java

Indah Puspita Ningrum, Yeni Aryati Mulyani, Ani Mardiasuti 32–39

Case Study

Integrated approach to treatment of a multidrug-resistant bacterial infection in Geoffroy's side-necked turtle (*Phrynops geoffroanus*)

Nicole de Jesus Domiciano, Rafael de Carvalho Cabalero, Raphael Libório Ribeiro Melo, Lara Carvalho Alves de Sousa, Estela Larissa Silva dos Santos, Marta Vasconcelos Bittencourt, Ludmila Rodrigues Moroz, Paulo Roberto Bahiano Ferreira 20–31

Short Communication

First report of *Porphyromonas pogonae* infection in a bat (*Nyctalus noctula*): implications for wildlife health and zoonotic potential

Gianna Dondini, Gabriele Ratti, Marcello Consolo, Clarissa Giacolini, Simone Vergari 7–10
